

YACHT & YACHT SUPPORT CRANES

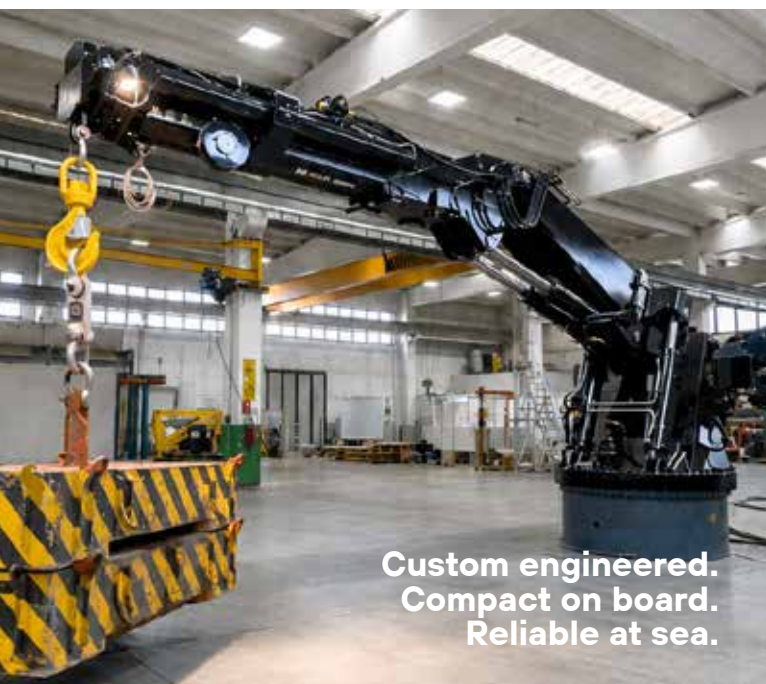

Custom lifting solutions for premium marine applications

Heila designs crane solutions for yachts and yacht support vessels, where compact integration, marine reliability and refined execution must work together.

Built around the vessel

Every yacht project has its own layout, operational needs and finishing requirements.

For this reason, Heila develops crane solutions that can be adapted around the vessel, combining lifting performance, compact configuration and clean integration on board.

Custom engineered.
Compact on board.
Reliable at sea.

Yacht grade finishing
Flush ground welds
and refined coatings
for a clean, seamless
look on board.

COMPLETE RANGE OF HEILA CRANES

Horizontal load HLRM cranes and special execution

Crane model	nr of extensions		Length of boom (m) and crane lifting capacity (kg)							Revision – 1 Juni 2024
			3m	4m	5m	6m	7m	8m	9m	
HLRMS 50 YACHT	3S	m	3,60		5,55		7,52		9,85	
		Kg	1500		1500		1500		1500	
HTR 50/9.3	1S	m		4,84					9,30	
		Kg		10000					5000	
HTR 50/11	2S	m	3,80				7,3			10,8
		Kg	11500				6000			4000
